II. Mining and Reclamation

1. Was the mine active during the past year? Yes ☒ No ☐

3. How much **additional acreage** was disturbed during the past year? 0
4. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, and volume of material moved.

This open pit mine was expanded in 1994 to mine additional rip-rap for the marina project at Bear Lake. Some material that was not hauled out of the pit in 1994 was stock piled for future use. In 1995 this material was hauled to the marina for maintenance repairs of the dikes.

5. How much acreage was **reclaimed** during the past year? 5 acres
6. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.

All slopes have been reseeded with a highland pasture seed mix. This seeding was done in the fall of 1995, not sure what was the result yet due to snow cover at this time.

7. What is the **total disturbed acreage** at years end? 5 acres

8. Briefly summarize any mining and/or reclamation plans for the upcoming year.

It is our intent to mine at this location as the need arises to perform maintenance at the marina. We will continue to inspect the area to insure that the reseeding project is working and reseed if necessary.
